FLORES – SUMBA – TIMOR

THE JOURNEY

Flores (Labuan Bajo) - Sumba - Mengkudu - Sumba (Tambolaka)

10 nights (9 days of surfing)

Join us on a journey of exploration as we travel to the wave rich and lesser travelled region of East Nusa Tenggara.

The voyage begins in Labuan Bajo and from there we cruise south to the prehistoric Island of Komodo and beyond to Sumba.

Sumba is home to a multitude of breaks, some secret and some more well known. We have explored the entire region from east to west for over 20 years and as such know what will be working, for whichever level, at any given time or condition.

While discovering perfect waves we will also experience the incredible cultural and natural wonders this region has to offer.

We promise empty line-ups, waves for all levels and memories that will last a lifetime for surfers and non-surfers alike.
